

# Computer Science – Lab Rules

## Write Code Every Day

- Write some source every day
- Don't game on your phone
- If you're distracted for more than 15 minutes, expect to be nagged
- If you're regularly distracted, I may deduct credit

Don't Mess with **Tools** unless you're allowed (including anything in the drawers)

Bathroom is in the corner by the entry door

- Use only the **deadbolt** when locking, do not use the door knob lock.
- Knock if the door is shut
- Leave the door cracked when you vacate
- Turn on fan if you make a smell

## Be Tidy

- Keep backpacks out of walkways
  - Push your chair in when not sitting
- if you eat:
- Don't eat over the keyboard
  - Wash your hands before touching controls

Trash Can is near entrance or by ladder

## Don't Reconfigure Things

- Don't move monitor arms all over unless you really need it
- Don't unplug things   -Don't unbundle / unwrap cables   -Don't relocate chairs

## Be Social but Considerate

- Don't talk while someone is presenting, and please pay attention
- When coding, it is fine to discuss code and debug with neighbors
- If you can't focus well, don't distract others
- Do not make obnoxious sound effects or repetitive loud music (esp. memes)

## When Class is Done

- Just Logout, the computer will sleep automatically from the login screen
- Turn off your mouse to save battery
- Store mouse and keyboard under your monitor so I can keep the tables clean
